SCHEDULE OF MEETINGS

City Attorney Steve Mattas reminded the City Council that Assembly Bill 1234 required two hours training on conflict of interest and ethics laws for elected officials in California. He inquired when the Council would like to conduct such training.

Councilmember Polanski stated her preference to hold a special meeting, live, and that she wished to invite all Commissioners to attend, and not to hold this training at a regular meeting.

Mayor Esteves concurred with the idea of a special meeting and that staff would arrange a date when all Councilmembers were available, which the City Attorney noted.

Councilmember Giordano stated the February 9 Terrace Gardens Board meeting was canceled.

Councilmember Livengood said he would attend the February 9 Treatment Plant Advisory Committee meeting at 4:30 pm at San Jose City Hall.

MOTION: to approve the Schedule of Meetings, as amended

PRESENTATIONS

Proclamation:

Employee Christopher Schaller, City of Milpitas Housing & Neighborhood Preservation Specialist was presented with the Rotary Club's 2006 Gene Schwab Memorial "Service Above Self" Award. Chris received a standing ovation from all persons in the Chamber.

Six employees who were nominated for the award were also noted by the Mayor for their service: Irene Felix, Marilyn Gatchalian, George Perez, Flora Tzeng, Lynette Wilson, and Kathy Ynegas.

Certificate of Commendation:

Martin McKeefery, Miniature Race Car Driver and winner at Sonoma World Finals Road Race November 2005, was presented a certificate by Mayor Esteves. Mr. McKeefery also displayed his 1934 Ford Coupe replica race car outside the City Hall, in the nearby parking lot and provided a video display of his winning race in the "Legends" world race final at Infineon Raceway in Sonoma, CA.

CITIZENS FORUM

Dennis Smith, recently bought a home and moved to Milpitas. He offered to buy a police officer a cup of coffee, and the Police Officer said "no, thanks" as the City policy says no. Mr. Smith had spoken to the City Manager, Police Chief, and the Mayor's office. He would like to be able to offer to buy a cup of coffee for a first responder, so he requested a modification to the "no free lunch" policy.

Frank DeSmidt, representing the Chamber of Commerce, announced his organization was hosting a "Crab Feed" event on March 3 and he had tickets for sale.

Russ Bargstadt, President of Starlite Homeowners association, spoke in opposition to an ABC liquor license application for a company doing business as Jerry's Deli at 1491 South Main St. for a license to sell hard alcohol. Residents had problems with persons buying liquor and then consuming it in a park nearby. Customers were intimidating, broken leftovers, shards of glass left in play areas for children. Residents felt ABC should not allow further sales in the neighborhood with the risks to children. He requested City representatives to oppose the license and to help protect the neighborhood by contacting the ABC office in San Jose.

Mayor Esteves asked the City Manager to work with the speaker on the issue raised.

ANNOUNCEMENTS

Councilmember Polanski would like City staff to get the ABC liquor license information to Council via email.

Mayor Esteves offered congratulations to Chinese and Vietnamese students association at the High School for their recent lunar New Year show. He announced new businesses in Milpitas: an H&R Block branch (at Calaveras & Park Victoria) and the Larkspur Landing Hotel.

He also announced the City's flags were at half-mast as a mark of respect for recently deceased Mrs. Coretta Scott King, per the request of the President to federal, state, and local government.

It was determined after start up that the radiator had past its useful life and needed to be replaced at a total cost of \$13,804.13. Also, after the engine had been disassembled it was determined that the rocker assembly was badly worn and needed to be replaced at a cost of \$1,649.04.
- (2) \$1,263.36 to Folger Graphics for tax and freight on the "Reusable News" newsletters. On January 4, 2006, staff went out to bid to print and mail 14,500 recycling informational newsletters. Council approved the purchase on January 3, 2006 for \$8,520.69. However, at the time staff was not aware that the bids did not include tax and freight, in addition to the fact that there were art changes required after the first proof. Even with the changes, Folger Graphics' bid was still the lowest.

RA 5. Receive Progress Report on Library and East Parking Garage, Project No. 8162 and No. 8161

Mark Rogge gave an update on the new library project work to date. He reviewed energy efficiency savings in his presentation on costs. So far, project staff maintained the budget, with regular furniture and fixed cost estimates remaining the same.

Additionally, Mr. Rogge displayed newer artist renderings of the new library structure, including a unique tencel fabric roof as described. He then reviewed the status of the parking garage at the library, including a utility re-do project (awarded on the consent calendar). He discussed efforts to maintain existing businesses in the downtown region when construction starts, to maintain business access on the street. Community information would be found on the City website, and compliance with best management practices would be executed.

Councilmember Giordano had a question on the removal of photovoltaic panels: was there any aesthetic impact? Mark Rogge said a modest one, with a handsome look.

Vice Mayor Gomez asked about Best Management practices in construction: were those the same as a mitigation plan? Mr. Rogge responded by reviewing explicitly what actions would be taken toward mitigation in the downtown.

Staff gave an update on site preparation work that had been occurring on site. All asbestos was removed from buildings, and then torn down - blacksmith shop and others (branded boards were saved for display). Work continued at the school section of the site, with removal of paint, asbestos, and all hazardous material. It was due to wrap up at the end of the month. The site was due to be ready on March 7 for ground abatement work (ahead of schedule).

**RA 6. City of Milpitas
Financial Status Report for Six
Months Ended December 31,
2005**

Finance Director Emma Karlen reported the City's financial status to date. She highlighted the reduced unemployment rate in the county (up from a year ago) and an increase in sales tax revenue during the last quarter.

She provided more details, such as inflation was not an anticipated problem, while the state's economy was sensitive to interest rate increases for developers and home buyers (per an ABAG report). Overall anticipated revenue was slightly higher than budgeted, with lower sales tax, due to the anticipated car dealerships that would not be ready for business until the next fiscal year.

Ms. Karlen explained a 25% increase in two one-time transactions: \$1.1 million repayment of Vehicle License Fees (from 2003-04) by the state (it was repaid a bit earlier than promised) and the recent sale of the former City Manager's Milpitas home.

Expenditures were on target, at 50% this time of the year, with a small savings in department budgets, as 5% at the beginning of year. Questions remained on how to balance the budget at year's end. Likely, the City would need part of redevelopment funds to balance the General Fund.

Councilmember Livengood recalled that the Council made a policy statement that it does not want to use any more reserve funds to balance the City's budget. Constraint being shown by staff was laudable and appreciated, but it was bad that money was still tight (operating with deficit), a slow economic recovery, and the need to continue with a conservative budget. He thanked the City Manager and staff.

The Finance Director announced several budget-related meetings upcoming: on Tuesday, March 14 at 6 PM was the council budget work session; on April 18 Council review of Capital Improvement Project plan overall; May 9 was the budget hearing, with May 11 as an alternative date if more time was needed; and finally, June 6 was the scheduled date for final budget adoption.

Mayor Esteves had questions about the sale of some properties to the Agency in the amount of \$6.1 million. Ms. Karlen explained that \$6.1 million was the amount projected to be used to balance the City's General Fund budget, via a transfer to RDA from the City for purchase of city properties. She described the mechanism to balance the budget presently, not as a way to balance the budget forever.

**RA 7. Approve FY 2005-06
Mid Year Budget
Modifications for Operating
Budget and Capital
Improvement Projects**

Finance Director Emma Karlen provided a Mid-Year budget review of Capital Improvement Projects and other items for budget adjustments, totaling \$1,105,068.

Mayor Esteves inquired about two items: \$150,000 for fuel needed (a 25% increase, due to the high price of the commodity) and \$480,000 in sewer costs. The Public Works Director explained the economy of scale for the sewer replacement project this year.

Vice Mayor Gomez inquired about an event for re-naming the Senior Center and its funding source. The Finance Director stated the City Council community promotions budget (\$3,000) and another (\$2000) line item were recommended by staff, to cover the proposed costs.

Councilmember Livengood was not clear on how these items were not going to impact the General Fund. Ms. Karlen explained they were designed for full cost recovery. Also, Fire Chief Frank stated that FEMA reimbursement funds were expected to be received by the end of this fiscal year.

Motion: Approve staff recommendations, as follows:

Additional budget appropriations for operating and capital improvement projects expenses:

1. \$5,068 from the General Fund to Recreation Division to provide funding to the Senior Nutrition program due to increased participation and for sign language interpreters services at a Rainbow Theatre performance.
2. \$300,000 from the Redevelopment Agency Project Fund to City Attorney's operating budget to pay for additional attorneys fees and other litigation costs associated with the City Hall.
3. \$150,000 from Equipment Fund to Public Works Department to cover increased price of fuel.
4. \$480,000 from the Sewer Fund to Capital Project no. 6073 Sewer Deficiency Program for sewer main replacements.
5. \$40,000 from the Water Fund to Capital Project no. 7098 South Milpitas Water Replacement to complete the seismic design of the pipeline.
6. \$60,000 from the Redevelopment Agency Project Fund to Capital Project no. 8106 Storm Water Pump Station Improvements to fund rehabilitation of the roof for Penitencia and Bellew Storm Drain Pump Stations.
7. \$60,000 from the Redevelopment Agency Project Fund to Capital Project no. 8135 Buildings Improvements to update the fire alarm system in City Hall and other improvements to Fire. Stations 1, 2 and 3.
8. \$10,000 from the Redevelopment Agency Project Fund to Capital Project no. 8159 Evidence Freezer to fund upgrades necessary to meet building permits requirements.

Funding requests that do not impact Fund Balances:

9. \$23,709 from the General Fund to Recreation Division to pay for contractual service for Youth Basketball program. The costs for these services have been recovered through enrollment fees.
10. \$67,090 to increase Fire Department overtime and training budget by \$65,400 and \$1,690 respectively. The funding sources for the additional appropriations are from FEMA reimbursement, overtime plan check service reimbursement and deposit holding account.
11. \$78,610 from developer contributions to Capital Project no. 4186 Abel/Calaveras Right Turn Lane to fund additional right of way costs.
12. Re-open Capital Project no. 8134 Senior Center Renovation to pay the outstanding invoices totaling \$190,000. The project has sufficient funding for this request.

REPORTS OF OFFICERS, COMMISSIONS, AND COMMITTEES

City Council

**2. Consider the Addition of
One Alternate to Serve on the
Milpitas Planning Commission**

Councilmember Livengood asked his colleagues to approve his request to ask the City Attorney to come back to the Council with an ordinance to permit one alternate member to serve on the Planning Commission. This was done on most other City Commissions, he felt it was a good idea, it would open more opportunity to residents and ensure a full Planning Commission for voting on all actions.

Councilmember Giordano supported the concept. She asked the City Attorney if it was allowable by law? City Attorney Mattas said yes, an alternate could be recommended. Mayor Esteves wanted a complete legal response on that question.

Mr. Mattas said the Planning Commission was a quasi-judicial body, and an alternate would need to be fully aware of any issue, available to learn all of what occurred if an item was continued from one meeting to another, and other legal issues, but the City Council had the authority to establish the membership of the Planning Commission. The alternate member would probably want to be available at all meetings and ready to step up, in the absence of another Planning Commissioner.

Mayor Esteves asked if there were any other California cities with alternates on the Planning Commission? The City Attorney replied yes and that his office would research that question and reply to the Council on it.

Councilmember Polanski had no difficulty with this change; she wanted to be sure that because the Commission was a quasi-judicial body that there was nothing outside of what was legally discussed, as a responsibility. Mr. Mattas would provide further background in a memo to the City Council.

Mayor Esteves was not comfortable with this proposal and was concerned about the legal status of the alternate. Also, he noted that an alternate member would not automatically become a voting Commissioner; as on other Commissions. He knew that lack of a quorum was not a problem on the Planning Commission in terms of Commissioners' attendance. He did not support the recommendation, as he did not believe an alternate was necessary when lack of a quorum was not an issue.

Motion: Direct the City Attorney to return to the City Council with an ordinance amending Municipal Code Title I, Chapter 500 regarding Planning Commission membership, to add one alternate member, including term of office and duties.

The motion included the Council receiving a memo from the City Attorney, as requested by Councilmember Polanski.

3. City Council Investigation of Unpaid Developer Fees

Item removed from the agenda.

4. Review and Approve the Economic Strategic Action Plan as Recommended by the Economic Development Commission

Economic Development Manager Diana Whitecar presented the Economic Strategic Action Plan, recommended by the Economic Development Commission, several of whose members were present. She highlighted and discussed the eight significant Goals of the plan, as outlined in the agenda report to Council.

She reviewed a page that itemized estimated costs of the entire plan package. She suggested the City Council may wish to prioritize and/or recommend spending of any of the items listed, and to review some of the longer term expenditures. A high priority of Economic Development Commission noted was to improve Milpitas' image (especially through signs). A strong "Shop Local" program was important to further this Goal, among other steps.

Councilmember Livengood commented on Great Mall "re-tenanting." The addition of retail stores such as Kohl's meant increased sales tax revenue. That step was beneficial for the City, but urged staff to watch development when re-tenanting into uses does not produce sales tax revenue (for example, mortgage businesses).

Staff highlighted housing related issues in the Plan, noting it was necessary in Milpitas to balance housing supply with demand (a no cost item goal); with a not to ensure the EDC was clear on the affordable housing goals of the City.

Vice Mayor Gomez asked how business retention and attraction worked. Ms. Whitecar noted her involvement doing this type of work in other governments, and cities were affected by Proposition 218 (a lengthy process working with property owners).

Councilmember Giordano inquired if there was a measurement of success on each Goal or for the program in entirety. Staff replied for each item.

Vice Mayor Gomez wanted to be careful on the topic of "nanotechnology." He thought it was "scary" to use taxpayer dollars to support private industry.

In response to Councilmember Giordano, Ms. Whitecar said the plan had stated timelines to achieve the varied goals, and that the staff would come back twice each year to Council with a progress report.

Staff pointed to the Redevelopment Agency explicitly, that identifying a very clear, longer term, specific redevelopment program in this City was necessary. Revenues were

thin and the City needed to approve a 5-year RDA plan to be consistent with state law. Such a plan would give the City Council a good chance to review the increment and how to spend it.

EDC Chairman Brahmhatt thanked staff and the Council for its support of the Plan goals. He expressed satisfaction in the progress made to date and was very pleased that the City supported the hiring of an Economic Development Manager. He discussed the EDC "Wish List" for the coming FY 2006-07, and he did not know where the money would come from to fund all those items. He discussed the Commission's desire for signs at entry ways to the City, to improve retail and promote shop locally, and to help improve areas where it was more rundown in Milpitas.

In review of the costs, staff looked at the Plan expenditures overall by Fiscal Year. Over the next two years, recommended costs could be absorbed in current budget for economic development. She provided \$188,500 in 18 explicit recommendations for FY 2005-06.

Vice Mayor Gomez asked if staff would look at the issue of churches in industrial areas. Staff replied yes, in response to Mr. Gomez's concern for non-revenue generating uses in industrial areas.

Councilmember Giordano sensed a shift in philosophy on land use issues and she supported the re-tenanting issue at the Great Mall. That was a whole different approach on land use issues as well as the economy; and asked how would the shift take place.

Councilmember Polanski inquired how long the industrial land use study would take. Staff was unsure, but with tight time frames perhaps one year or only nine months.

Councilmember Giordano asked if the City need a mission statement on this plan. Ms. Whitecar did not recall that there was one and was something the EDC could discuss.

Mayor Esteves desired the City pursue the goals on the list with the most impact that would get attention and be achieved; he felt the quality of education was the most critical and he did not see any action items about schools explicitly. Staff could bring to Council the EDC's work plan and perhaps a subcommittee of the EDC could address the education topic.

Vice Mayor Gomez felt, when talking about education, the City could impress upon things it already does with the Milpitas Unified School District overall and to recognize the importance of those cooperative efforts, to assign value to those.

Chairman Brahmhatt stated the desire of EDC to have a campus of some institution of higher learning in Milpitas. Councilmember Polanski believed that the School District was in fact looking at a partnership with Evergreen Community College.

Councilmember Livengood asked the Economic Development Manager about the webpage. Staff responded that first, one was needed for economic development and redevelopment explicitly. For example, if someone wants to open a business, while the web does provide some basic information, there was not any clear connection to demographic and business detailed information to assist potential business owners.

EDC Commissioner Don Peoples thanked the Council for hiring the Economic Development Manager; she was great in working with Commissioners and business owners in Milpitas in her short time with the City.

EDC Commissioner Ray Maglalang recalled years ago when he was on the CAC, he checked a table mat at a restaurant and asked himself why only San Jose was mentioned. This identified the image problem for him. He mentioned hotel names, and believed it was time to create Milpitas on its own terms, get others to follow, and that the plan was a

great start.

EDC Commissioner Frank DeSmidt, seconded Mr. Peoples remarks. Lots of work had been done on the Plan, and it was an important investment in the future of the City, and critical to sell the idea that Milpitas does matter in the County and in Silicon Valley.

Councilmember Livengood felt in a global sense, the Commission had done good job of laying out a “roadmap” for Council for a best case scenario in the planning; the City Manager did a good job hiring the Economic Development Manager. He was not sold on the \$60,000 study in the Mid-Town Precise Plan in the first year. He suggested moving half that money to the first year and to test signage. He did not like idea of brochures (do not accomplish a whole lot). He wanted to know why the Piedmont/Landess entry sign was on the Plan in first year.

Ms. Whitecar responded that the funding was already in the CIP for the entry signs. Councilmember Livengood believed the money could be spent on another type of sign, or better placement or bigger entry way sign elsewhere. He felt that \$37,500 from Public Relations from the first year (1/2 of P.R.) should be held off before spending.

Councilmember Polanski complimented staff and the EDC, she liked the “shop local” idea and improved image concept was needed. She supported Mr. Livengood’s idea of holding back half of the public relations budget and to measure its success first.

Councilmember Giordano asked how would the City measure success of the public relations effort. Staff reported one measurement would be the number of hits to the website page as well as the number of phone calls about business inquiries.

Mayor Esteves was very pleased to be moving forward and taking action on this long time arriving Plan, even though compared to other cities this was a miniscule amount to be spent on such an important issue for the City.

MOTION: Approve the proposed Economic Strategic Action Plan for the current Fiscal Year, with the following specific actions:

1. Move the Midtown Precise Plan from the current FY into the next FY (starting July 2006)
2. Allocate one half of the Public Relations program funds (\$37,500) spent in this Fiscal Year 2005-06
3. Locate another site in addition to Piedmont-Landess site as a significant entry sign
4. The remainder of Economic Strategic Plan (items in the second and third fiscal years) must come before the City Council at budget time
5. All funding issues in the Plan must come before the City Council before the money was to be spent

ORDINANCES

11. Waive First Reading Beyond the Title and Introduce Ordinance No. 224.6, regarding Mobile Home Park Rental Review Board

City Attorney Steve Mattas discussed this issue, with regards to appointing an alternate to the Mobile Home Park Rental Review Board. The Board had the duty to appoint a mediator in certain circumstances (as a recent issue had been brought to the Board’s attention).

The Board could make decisions once it achieved a quorum. A quorum could more easily be achieved when an alternate member was available to be seated in the place of a regular Board member who was unavailable for a meeting or had to recuse him/herself (as had recently occurred). The City Attorney expressed that the Mayor could make a recommendation for appointment of an alternate member, which the Council could approve, once the proposed ordinance was adopted and went into effect.

**12. Waive First Reading
Beyond the Title and
Introduce Ordinance 227.4
Amending Chapter 215 of
Title V of The Milpitas
Municipal Code Related to
Prohibitions on Smoking to
Include Public Playgrounds
and Sports Facilities**

Public Works Supervisor Carol Randisi presented this topic to the City Council. Staff reviewed current smoking regulations in the city’s municipal code, prohibiting smoking in City vehicles and in City workplaces. The request came from the City Council to enhance those regulations, with regard to playgrounds and sports facilities including refreshment stands.

In the proposed updated ordinance, the City Manager would have the authority to enforce the regulations. Also, it was anticipated that amending existing City signs could be done at a cost of \$3,000.

Councilmember Livengood inquired, at any point, does smoking in stated areas become a state violation? Staff said that was not applicable here, and that only a portion of the state labor code applied.

City Attorney Mattas further replied that the “V-215-1.60 Violations Reports to State” section on the draft ordinance, page 4, should be removed from the ordinance, as it did not apply to local enforcement of the updated section of the no-smoking policy.
